Chairman's Message

As I had reported in last year's notes, fishing all around is very much weather dependent. The 2025 season's weather was more favourable resulting in the Corbet lough presenting as a top-class angling facility with excellent hard fighting Brown and Rainbow Trout being caught, including some larger fish in the 5 to 7lb range.

One of the issues we have been dealing with at the Corbet is the presence of Argulus fish lice. Some tested and suggestions in managing their numbers we no environmental impacts is via the placement of Black plastic pipes positioned around the lough as egg laying sub-strata. The pipes are left in the water for approximately two weeks and then rotated exposing the egg strings to the atmosphere killing off the eggs thus helping to reduce their numbers. We have seen a dramatic increase in weed growth in the lough and are currently investigating options to purchase a powered weed cutter for Club use. The cutting of weed will be a labour-intensive exercise and if anyone would like to help, please let the committee know or when renewing fees.

I would like to take this opportunity to thank our fish supplier Glen Oak Fishery, and the Corbet Lough Boating Attendants Wilson Clinghan & Damian Murtagh for a sterling job in assisting our Boat and shore anglers at the Lough, as well as providing the weekly fishing reports being posted on Facebook.

The committee have worked hard over the last year in managing the Clubs business affairs which continue to increase year on year. As well as obtaining a grant to carry out survey work on the River Bann and Corbet Lough, this hopefully will lead to more investment in the river and lough.

I would like to thank our elected Committee members for their support and work carried out over the year, all on their own free time. I would invite anyone wishing to help in the day to day running of Banbridge Angling Club to put their name forward at the AGM or the collection of fees. It can be very satisfying in knowing you have helped the club grow and progress.

I would like to thank our Honorary Secretary Joe Curran, for his continued support in the role of Secretary and to his dedication to the ever-growing business side of the Club. His work recently helped secure a Water Quality improvement grant to the value of £28,500 for the Upper Bann area being shared between Banbridge, Rathfriland and Clonduff Angling Clubs, as well as securing the renewal of our fishing lease on the Corbet Lough for the next 20 years plus countless other jobs involved in keeping the wheels turning for the Club.

Our governing body the Ulster Angling Federation keep us informed on their efforts to protect and improve angling. In one of their recent reports obtained via DAREA this detailed the quantity of fish that has been removed from Lough Neagh by netting over a 10-year period up to 2024, being 121.5 metric tonnes of Trout, with a total of 3,797 metric tonnes of all fish species.

I would like to thank the UAF for their continuing work in the protection of angling.

A big thank you to all our riparian landowners along the River Bann for their continuing support in allowing us access to the river. I would remind all anglers if entering through gates to ensure they close the gate behind them or leave the gate as you find it.

In every committee meeting we ask for any bereavements to be noted, and sadly these are becoming too frequent. For those members we may have missed we apologize and offer our sincere condolences to all those members and family friends who are no longer with us.

Happy new Year and tight lines to everyone for the 2026 season. Get out and go fishing it is good for you!
